

Description

Galaxie PU Super Clean is a mixture of non-flammable solvent and lubricant for cleaning of equipment when using any of the Galaxie PU injection range.

Benefits

- Non-flammable
- Highly efficient
- Lubricating

General Application

- Flushing of injection lines and equipment prior to injection
- Removing small spills from non-porous surfaces
- Cleaning of injection pumps after use.

Application Guidelines

Pumps should be thoroughly primed with Galaxie PU Super Clean to lubricate and remove any moisture from the system before injection. The cleaner must be completely removed prior to charging with resin. When the injection is complete, clean all tools and pumps which have been in contact with the resin making sure to pump all waste resin from the pump and lines first. This should be done before the resin has reacted.

Operation

The pumps should be cleaned by removing any resin remaining in the pump or lines. Cleaner is put through the pump and lines and re-circulated for at least 2 minutes (also turning the valves on and off) and the cleaner should then be replaced with fresh cleaner and the process repeated. Product and residue should be disposed of according to local legislation. Refer to the product Safety Data Sheet for general recommendations. In case of spills and accidents, refer to the Safety Data Sheet of the product or when in doubt contact your local Galaxie agent. Always wear appropriate protective wear for the job at hand according to local guidelines and regulations.

Technical Data

GALAXIE PU Super Clean	
Appearance	Clear Liquid
Viscosity	20 Cps
Density	1.18-1.22 g/cm ³
Flash point	>150°C

All technical data stated Above is based on tests carried out under laboratory conditions at 25°C

Packaging

Galaxie PU Super Clean is supplied in 5kg, 20kg and 200kg drums. Packaging size may vary subject to local regulations and requirements.

Storage

Galaxie PU Super Clean should be stored at room temperature (min 10°C and max 35°C), kept dry and out of direct sunlight. If these conditions are maintained and the product packaging is unopened, then a shelf life of 1 year can be expected.

Health & Safety

Galaxie PU Super Clean should only be used as directed. We always recommend that the Safety Data Sheet is carefully read prior to application of the material. Our recommendations for protective equipment should be strictly adhered to for your personal protection. Please contact Galaxie or your local representative for the current SDS.
